Narrative:

On 06/12/2018, at approximately 0030 hours, Monica Suarez brought her four year old daughter (Antonia Hernandez) to the Peninsula Hospital ER because she was having abnormal vaginal discharge. Antonia told her mother that her father (unknown name) had touched her inappropriately over the weekend. Hospital staff contacted CPS and SFPD since the suspected crime occurred at the father's residence (670 Monterey Bl. #1). SFPD advised they would dispatch an officer for the report.

On 06/12/2018, at 0329 hours, Peninsula Hospital contacted BPD and requested assistance due to the fact that SFPD repeatedly told them they had no officers available to respond to the hospital. I contacted the SFPD Watch Commander (Sgt. Bodisco) via the telephone and advised him of the incident.

It was mutually agreed upon with Sgt. Bodisco to have an officer escort the family & victim to the Ingleside station for an interview. Officer Vineyard escorted the family to the Ingleside station where they met with Sgt. Bodisco.

BPD did not interview the victim or mother in this case.
